## **Growth Companies in San Antonio**

*San Antonio Business Journal – July 2007*

**DOCUMATION** Inc. has been recognized by the *San Antonio Business Journal* as one of the fastest growing companies in the San Antonio area.

Over the three most recent fiscal years (2004 – 2006), **DOCUMATION** Inc. of San Antonio has seen revenue figures rise at an average compounded rate of 37.76%. This performance earned **DOCUMATION** a number 4 ranking within their category and number 19 overall.

**DOCUMATION** was formed by the merger of two companies in 1997. The first was Copy Distributing of San Antonio, a company that began selling and servicing copiers and fax machines throughout south Texas in 1965. The other was Xerographic Copier Services, Inc., which was formed in 1989 to remanufacture and service high volume Xerox machines. We have been part of the office automation industry for over 40 years.

Shortly after the merger, **DOCUMATION** became a distributor for Ricoh Corporation, the largest maker of copiers, printers and duplicators in the world. The company then purchased the largest independent dealership in New Mexico and in 2004 entered into a partnership agreement that led to expansion into Austin, Bryan/College Station and north Houston.
